

Redi Burs Blanks (Carbide Shanks)

Dental miniature Blanks / Carbide Drill Bits Blanks

We manufacture high precision small inch standard tungsten carbide rotary bur blanks. Miniature Redi burs blanks come complete with carbide bur head brazed to 3/32" or 1/8" carbide shank ready for CNC tool finishing. Customization of your special tools is possible. Minimum orders may be required. Contact us for more information.

Head OD	Head Length	TIP Diameter	Shank Diameter	SHANK Length	Item No.
